

What are our clients saying about us?

"DMC Systems is the leader in providing accounting support and systems consulting to the professional services industry. Many Aegis clients use DMC and benefit from the knowledge, experience and professionalism of DMC's staff."

James H. Gildea, Founder
Aegis Associates, Inc.

"DMC Systems has provided our firm with very helpful assistance in establishing, utilizing, and maintaining our Deltek Vision financial software. The DMC consultants are extremely professional, knowledgeable, and personable."

Mike King, Director of Business Administration
Applied Geographics.

"Doris and her team at DMC Systems were key members of our Advantage implementation team. From custom report programming to training employees on the new system, we would not have been able to accomplish so much in so little time if it had not been for the services provided by DMC. Long after the implementation, Doris continues to be a valuable resource to our firm in a variety of areas."

Stephanie Hooton, Finance System Manager
ATC Associates, Inc.

DMC Systems Group, Ltd.

Where do we work?

As a Boston based company, our primary service area is **Massachusetts** and the surrounding New England states, but we are available to **Work Nationally** as we already work in Georgia, Texas, Indiana, Illinois, Wisconsin, Maryland, New York, and New Jersey. In recent years, we have also expanded our focus **Globally** by working remotely in the United Kingdom and South Africa.

What firms are we servicing?

We are working with a **wide range of companies in various industries** including Architecture, Engineering, Construction, Distribution and Not For Profit Organizations.

We service companies **as small as 5 employees up to 2,000 employees**. On average, the typical firm we service has 20-50 employees.

What separates us from other accounting consulting firms?

Our **friendly consultants** are very professional and their expertise will help your company to **solve the most complex problems**.

We work with your company all the way through the end of the project, from choosing the best accounting package to training and monitoring.

Each consultant at DMC Systems is **always available for support and additional services** to respond to your company needs.

Experience working with **DMC Systems Group where Accounting consulting meets IT services**.

Personalized, customized work is our standard.

Who are we?

The DMC Systems Group team consists of consultants, who among them have years of experience with **accounting, bookkeeping, office managerial skills and software implementation**. Their **diverse backgrounds and experience** include CPA's, IT certifications, finance and accounting degrees, as well as many years providing conversion, set-up and training on numerous accounting software packages. This explains why most of our staff are well-versed consultants.

Doris M. Cahill, CPA and President who established **DMC Systems Group, Ltd. In 1996**, possesses over 11 years of experience in public accounting and 25 years in accounting solutions and project management systems. During those years in business, Doris managed to surround herself with dedicated, friendly and highly qualified people to grow the different areas of her business.

Your Accounting Solutions Partner

What services do we offer?

Our expertise covers a wide range of the following disciplines:

Accounting Consulting: We provide a wide range of services including accounting, bookkeeping and workflow efficiency. We also offer temporary services during vacations, absence and other employee transitions.

Technology Solutions: Our consultants will help you during the entire implementation of any software. This includes: overview of your current system, system installation, customization, database mapping/transformation, backing-up data, and on-going support. We also provide customization of templates, reports and writing of intermediate queries/SQL scripts.

Training Facility: We do offer a number of classes in house or on site. **Each session is tailored** to meet the needs of the client and we can train people **from a beginner up to an expert level user**. Our knowledgeable staff will train your people on accounting or on any software package that we support. Training that we offer can be **one-on-one or a group setting** and can even be performed remotely.

User Groups & Seminars: In addition to our training sessions, we offer free user groups and seminars for different software including MYOB and Deltek (Advantage and Vision). These focus groups are on one particular topic and software package.

System Monitoring: We provide overviews to companies and then present our conclusions regarding accounting, procedural/technical efficiencies, security and fraud prevention.

To meet the quality requirements of our clients, **we have partnered with leading technology companies** including: Aegis, Axium, Cadforms, Deltek, Intuit, MYOB, Rapid Forms, and Sage.
