

PROFESSIONAL BACKGROUND

Doris M. Cahill, CPA, established DMC Systems Group, Ltd. in 1996 due to the apparent need for implementation of accounting software and procedures in business environments.

Ms. Cahill is President of DMC Systems Group, Ltd. and has 11 years public accounting experience as well as 23 years experience in systems, including heading an IT department. She teaches a variety of classes pertinent to the management of a company's bottom line, as well as training on a number of accounting software packages. She sat on the Master Builder ProAdvisory Council for 2004/2005, served on the adjunct faculty for Lorman Education services 2005, and is a member of the American Institute of Certified Public Accountants.

Ms. Cahill is also a certified consultant for MYOB, a member of the Professional Advisors Program for QuickBooks, Sage Master Builder Professional Advisor, and an independent consultant for Deltek software. She has served as the chairperson for the Deltek User Group from 1995 to present, as well as co-chair for the Deltek National Consultant Forum. Doris has also partnered with Aegis Associates, Axium and BST Software.

OUR TEAM

DMC Systems Group, Ltd. employs a full staff of Qualified Software Consultants. Our consultants have experience in Accounting and software implementation procedures. Their diverse backgrounds and experiences include CPA's, MCSE certifications, finance and accounting degrees, as well as several years providing conversion, set-up and training on numerous accounting software packages.

"DMC Systems Group, Ltd. is the leader in providing accounting support and systems consulting to the professional services industry. Many Aegis clients use DMC and benefit from the knowledge, experience and professionalism of DMC's staff."

James H. Gildea, Founder - AEGIS Associates, Inc.

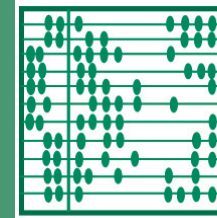

"DMC Systems Group, Ltd. has provided our firm with very helpful assistance in establishing, utilizing, and maintaining our Deltek Vision financial software. The DMC consultants are extremely professional, knowledgeable, and personable."

Mike King, Director of Business Administration - Applied Geographics.
